

# Plumbing Apprentice

## Apprenticeship Training

Learn to install and repair pipes for water, gas, sewage, and drainage systems, and to install and repair sanitary facilities. You'll test your installations to ensure compliance with plumbing code. Work can be indoors or outdoors on existing or new construction projects. Plumbers may work on a ladder/scaffold, in trenches and in various weather conditions. Work requires both stamina and physical strength, working in cramped or uncomfortable positions, and standing for long periods.

Apprentices who complete this apprenticeship have the opportunity to transfer course credits towards the Technical Studies – Journey Worker degree.

## Program Outline

TERM 1		
Course #	Course Title	Credits
5042775100	Sanitary Drains 1 Plumbing related instruction of sanitary drain systems. Course includes a review of codes and trade practices related to sanitary drains, drainage systems, components, and applications.	2.00
