

EMERGENCY MEDICAL TECHNICIAN

Technical Diploma

About the Emergency Medical Technician Program

Prepare to handle emergency medical situations while working on an ambulance or other clinical settings. Graduates are eligible to take the National Registry of Emergency Medical Technician cognitive and psychomotor exams for certification to be eligible for licensure in the state of Wisconsin.

PROGRAM OUTLINE

SEMESTER: 1

Course #	Course Title	Credits
3053130100	Emergency Medical Responder and Emergency Medical Technician Part 1 This course provides foundational knowledge for Emergency Medical Technician (EMT) candidates, and all requirements for Emergency Medical Responder (EMR) candidates. Topics include: basic anatomy and physiology, patient assessment, traumatic injury management, airway management, cardiac management and basic medical care. Upon successful completion, candidates will be eligible to participate in the National Registry of EMT's Emergency Medical Responder exams required for Wisconsin EMR certification.	2.00

SEMESTER: 2

Course #	Course Title	Credits
3053130200	Emergency Medical Technician Part 2 This course will further build upon the base knowledge of the EMR and EMT Part 1 course. Topics include: expanded anatomy, physiology, and pathophysiology, disease processes, more complex patient assessment and critical thinking skills, in addition to additional skills allowed by the Wisconsin Department of Health Services/EMS Section Scope of Practice for EMT's. Prerequisite(s): 3053130100 EMR and EMT Part 1 (C or better) (concurrent enrollment allowed).	3.00

Total Credits: 5.00

Talk with an Academic Advisor about the program outline. Together, you will determine if credits you've already earned satisfy any requirements, discuss possible alternative courses, and choose the best classes if you're thinking of transferring.
