NURSING ASSISTANT
Technical Diploma

About the Nursing Assistant Program

The nursing assistant is a vital member of the health care team. The nursing assistant carries out assigned duties under the direction of the professional nurse. Responsibilities include bathing, dressing, toileting, assisting with feeding, taking vital signs, ambulating, lifting and moving clients, and performing other selected nursing procedures. The instructional program for the Nursing Assistant diploma consists of lecture with laboratory practice and supervised clinical experience in local health care facilities. This program is approved by the Wisconsin Department of Health as a nurse aide training program. The diploma is granted for successful completion of 120 hours of instruction.
