The National Safety Education Center (NSEC) is one of 26 OSHA Training Institute Education Centers (OTIECs) in the nation. These education centers are a national network of non-profit organizations authorized by OSHA to deliver occupational safety and health training to public and private sector workers, supervisors and employers. Nicolet Area Technical College is not an OTI Education Center, but serves as a host training organization for National Safety Education Center.

Confined Space Refresher

Course #: 4744941602

Course Description:

This course provides industrial personnel with annual refresher training that expands the learner's skills in working as an attendant, entrant or supervisor in or near a Permit Required Confined Space (PRCS) according to the Occupational Safety & Health Administration (OSHA) 29 CFR 1910.146. This course will provide worker competencies to meet the requirements of OSHA 1910.146. The participant practices these skills with a live or simulated confined space entry.
