

# Gas Metal Arc Welding

## Technical Certificate

This certificate is offered for individuals interested in pursuing the skills necessary to be a successful welder in the Gas Metal Arc Welding process. Students will learn how to interpret prints and weld symbols prior to engaging in the weld process using various metal types including carbon steel, stainless steel, and aluminum. They will also perform the thermal cutting processes during this educational experience.

## Program Outline

TERM 1		
Course #	Course Title	Credits
1044215700	Thermal Cutting Develops skill in thermal cutting and gouging processes. Learners practice manual and machine oxy-fuel cutting, plasma cutting and gouging and air carbon arc gouging. Prerequisite: 1044217200 Safety in Manufacturing (C or better).	2.00
1044215900	Gas Metal Arc Welding on Carbon Steel Develop skills in gas metal arc welding. Learners use the "mig" process in all positions on carbon steel. Required welds include fillet and groove welds with short circuit, spray and pulsed spray transfer. Weld quality is assessed per AWS D1.1 Structural Steel Code. Prerequisite: 1044217200 Safety in Manufacturing (C or better).	3.00
3144210100	Weld Symbols Students will develop print interpretation skills needed in metal fabrication. Learners study prints containing section views, detail views, and weld symbols. Learners apply concepts in hands-on activities, print interpretation skills, calculating dimensions, identifying and interpreting weld symbols.	1.00
TERM 2		
Course #	Course Title	Credits
1044215000	Gas Metal Arc Welding on Stainless Steel Builds on skills developed in Gas Metal Arc Welding on stainless steel. Learners use the "mig" process in the flat, horizontal and vertical positions on steel, stainless steel and aluminum. Required welds include fillet and groove welds with spray and pulsed spray transfer. Prerequisite: 1044217200 Safety in Manufacturing (C or better).	1.00
1044215300	GMAW on Aluminum Develop skills in gas metal arc pulse welding on aluminum. Learners use the "mig" process in flat, horizontal, and vertical positions on aluminum. Required welds include fillet and groove welds with pulsed spray transfer. Weld quality is assessed per AWS standards. Prerequisite: 1044217200 Safety in Manufacturing (C or better).	1.00

**Total Credits: 8.00**

Talk with a Success Coach about the program outline. Together, you will determine if credits you've already earned satisfy any requirements, discuss possible alternative courses, and choose the best classes if you're thinking of transferring.

## What is Competency-Based Education?

Competency-Based Education (CBE) is learning at your own pace by mastering competencies through demonstration. Once all competencies for a program have been assessed and mastered, students will earn a certificate, diploma, or degree.

## Student Equipment

Students are required to purchase welding kits through the college bookstore or obtain the minimum tools and equipment listed to be able to successfully complete coursework and performance assessments in the welding lab.

- Safety glasses
- Welders gloves MIG and TIG
- Chipping hammer
- Welding beanie
- 8-way welder pliers
- Soapstone holder
- Triple flint spark lighter
- Tape measure
- Weld fillet gauge
- Mag tool
- Material handling gloves
- Backhand pad
- Tool bag
- Welder pencils
- Auto darkening helmet
- Lens cover
- Welding jacket

---

## What You'll Learn

- Print interpretation and weld symbols
- Gas metal arc welding on carbon steel
- Gas metal arc welding on stainless steel
- Gas metal arc welding on aluminum
- Thermal cutting

---

## Your Potential Careers

- Production Welder
- Maintenance Welder
- Welding Sales and Service
- Self-Employment

---

## Median Annual Salary

\$41,939	\$46,285	\$43,869
Local	State	National
