Wisconsin Supreme Court Decision and Local Impacts

The Oneida County Health Department understands that residents are likely to have questions following the Wisconsin Supreme Court's decision invalidating the Safer at Home Order.

As we wait for additional guidance from the State of Wisconsin, Oneida County Health Department urges residents to stay home as much as possible, only going out for essential needs, practice physical/social distancing, good hand hygiene, enhanced cleaning practices and utilize cloth face coverings in public when physical/social distancing is difficult to do, as recommended by the Centers for Disease Control and Prevention. Although the state Safer at Home Order is no longer in place, the science and data related to the COVID-19 pandemic has not changed. Additional guidance from the Oneida County Health Department will be forthcoming.

We continue to encourage local businesses to protect customers and staff by adopting appropriate safety guidelines, such as those offered by the Wisconsin Economic Development Corporation (WEDC).

To assist the public and businesses in adopting these practices, Oneida County Health Department has included links to the Centers for Disease Control and Prevention and Wisconsin Economic Development Corporation websites below.

<https://wedc.org/reopen-guidelines/>

While this virus predominantly affects our vulnerable population more acutely, no one is immune from developing serious, even life threatening complicating. Please protect others by protecting yourself.
