**ANNUAL REPORT  
2020-2021**

**NICOLET COLLEGE  
FOUNDATION**

"Your support makes a positive impact on our lives and futures."

!!!

"Thank you so much!"

"I'll be able to give back just as you are giving now."

"I'll be forever grateful."

"I can't wait to use my skills from my education in our community."

"Your generous gift will not be forgotten."

"I'm reminded how amazing our Northwoods community is."

# YOUR SUPPORT **SPEAKS VOLUMES!** ABOUT COMMUNITY!

As the Nicolet College Foundation works to help Nicolet College students, one theme in students' applications and thank you letters for scholarships and other assistance during the past year continued to emerge: community. Over and over, students expressed not only their gratitude, but their new found appreciation for our community. Most Nicolet College students plan to live and work here after they graduate, and you reinforce that decision.

Many students shared their new understanding and appreciation for you, our donors. They were honestly surprised by all of your support. It's a feeling that goes well beyond the borders of campus and extends through the Nicolet College District. This last year continued to be a challenge for many students, and you made all the difference in the world for them.

Along with the instructors and staff, you are among Nicolet College students' most important supporters. As one student puts it, "It isn't simply the financial assistance that allows me to reach my goals, it's the supportive community that helps me."

We are pleased to bring you the Nicolet College Foundation's 2020-2021 Annual Report. You will meet just a few of the many students whose lives you are changing. Your financial support is appreciated, but it is about so much more than that. We hope you will find proof of that in these pages.

Sincerely,  
John Schiek, 2021-2022 Nicolet College Foundation Board President  
Heather Schallock, Nicolet College Foundation Executive Director

KATHERINE HUME  
MINOCQUA  
NURSING PROGRAM

“Once I graduate, I’m going to help change the face of medicine and the care that patients receive. I’ll be able to give back to the community, as you are giving now. From the bottom of my heart, thank you.”

# I’LL GIVE BACK TO OUR COMMUNITY.

**K**atherine Hume lives in Minocqua and after working in the fast food and hospitality industries, she started working at a nursing home. She worked for a registered dietitian and helped design menus for the residents. She soon discovered her dream of becoming a nurse.

This discovery brought her to Nicolet College in the fall of 2020, nine years after graduating from high school. Nicolet’s flexibility allows her to keep her job, take care of her family, and pursue her nursing degree. “The feeling when you walk onto

campus is light. I never felt uncomfortable or had trouble getting in touch with an instructor or staff, and I feel at home when I am on campus,” she says.

Katherine plans to work as a neurology nurse and continue her education to become a nurse practitioner. She is grateful for the scholarships she is receiving, adding, “Thank you for helping me with college and ultimately helping me better myself. Accepting this scholarship is going to help me be able to breathe.”

# YOUR SUPPORT MATTERS.

“It’s really cool to see the community investing in a community college.”

**ADAM WOLF**  
EAGLE RIVER  
AUTOMOTIVE TECHNICIAN PROGRAM

Adam Wolf lives in Eagle River and says, “I decided to attend Nicolet College as a result of digging in and really asking what I wanted to do with my life. I finally put the rubber to the road and applied to a program. Attending Nicolet College is my first step toward a dream career of owning my own auto shop.”

It does not take long to see Adam’s passion for auto repair business. “Honestly, I just love time in the shop. I love learning about cars, the small differences and intricacies that make hundreds of little parts all work in tandem, and I want to be able to

professionally diagnose and repair cars that struggle working with that original rhythm. Starting my own shop will allow me to offer honest rates, quality service, and a memorable experience for every customer,” he shares.

Adam says receiving Nicolet College Foundation scholarships will actually help him complete his associate degree one year sooner. He is now able to enroll in more classes without taking out additional student loans. He adds, “Receiving this scholarship is an incredible blessing to my family.”

"To receive a scholarship from past educators is a true honor. It goes to show how much our small community values the importance of the continuation of teaching."

# COMMITMENT TO OUR COMMUNITY

Langdon Langhoff is from Eagle River, and she admits that she never planned to attend Nicolet College. She graduated from Northland Pines High School in 2019 and started attending a four-year university that fall. It ended up not being the right fit, and she says, "I was so fortunate to have Nicolet College, where I could simply continue my education, rather than start over."

Once Langdon started attending Nicolet College, she never looked back. "I consider myself very dedicated when it comes to my work and learning. I take work and education very seriously and always try to do better," she adds.

Langdon graduated from Nicolet College in the spring of 2021 with an Associate of Arts degree in the University Transfer program. She is now attending UW-Stevens Point, where she is pursuing a major in Elementary Education.

Receiving the Rhinelander Area Retired Educators' Association Scholarship when she graduated from Nicolet College is especially meaningful to Langdon. "To receive a scholarship from past educators is a true honor. It goes to show how much our small community values the importance of the continuation of teaching," Langdon says.

**LANGDON LANGHOFF**  
EAGLE RIVER  
ASSOCIATE OF ARTS DEGREE  
NICOLET COLLEGE ALUM

“Thank you so much for your contribution toward my education and future. I am so thankful for being part of such a supportive school and community.”

**ANDREA OLDS**  
RHINELANDER  
ACCOUNTING DEGREE  
NICOLET COLLEGE ALUM

# HOMETOWN COLLEGE & CAREER ●

Andrea Olds graduated with honors from Rhinelander High School in 2019, and after one semester at a four-year university, she transferred to Nicolet College and enrolled in the Accounting program. “I realized that I belong in a smaller community, where the financial burden is less,” says Andrea.

The decision to transfer to Nicolet College proved to be the best move for Andrea. “From the moment I began my time at Nicolet, everyone I worked with was very connected and interested in my well-being and education goals,” Andrea adds.

Northland CPAs invited her to apply for an accounting internship and after interviewing

she was offered the position. Andrea graduated in the spring of 2021 with an associate degree in the Accounting program. Her internship turned into a full-time position at Northland CPAs, where she now works as a payroll and bookkeeping associate.

Andrea is still enrolled at Nicolet College because she is taking University Transfer courses that will help her earn her bachelor’s degree in accounting. She is also the Nicolet College Foundation Student Ambassador, saying, “I really enjoy this opportunity to help promote the Foundation and to give back for all that Nicolet College Foundation donors have done for me.”

**359**  
SCHOLARSHIPS &  
OTHER AWARDS

## PERSONAL, PROTECTED, AND PROFESSIONALLY MANAGED.

The Foundation honors our generous donors who have established endowments. They represent a permanent investment in the future of Nicolet College and a promise to students committed to pursuing their educational goals. Your gift of \$5,000 or more maintains everlasting significance; with the core gift remaining intact and investment revenues funding future scholarships and specific donor-established purposes.

## CORPORATE, PRIVATE, AND INDIVIDUAL DONORS SUPPORT OUR GOALS.

The Foundation celebrates those who give graciously to our students and programs. Donors help transform lives by partnering with the Foundation to encourage, support, and promote the educational goals of our students. Your philanthropic investment allows them to enhance their lives through education, training, and experience to realize their dreams.

## A NICOLET EDUCATION FREE OF FINANCIAL BURDENS.

This partnership between Nicolet College and students bridges the difference between federal funded support and student financial needs. The Foundation's goal to remove financial barriers for qualified students ensures bright, hard-working, and dedicated students receive support allowing them to have hope in a solid, attainable future.

## SCHOLARSHIPS REPRESENT DEVOTION TO STUDENTS' GOALS AND DRIVE TO SUCCEED.

The powerful gift of a scholarship stays with students for their entire lives and impacts future generations. Scholarships are awarded to students who are committed to higher education and show promise for a successful future. Your investment in their future plays a critical role by making a quality education possible. Donors create a philanthropic legacy and strengthen the workforce by investing in students who go on to contribute to the community, economy, and society.

**“Your dedication to this  
community will create  
opportunities to be successful.”**

**MICHELLE HUML  
CRANDON  
HUMAN SERVICES PROGRAM**

“Even when my dad started in 1969, he really believed in lifelong learning. That was a time when that was such a novel concept.”

## A VISION FOR EDUCATION.

**DR. LYNN HUDSON**  
NICOLET COLLEGE FOUNDATION DONOR  
NICOLET COLLEGE ALUM

Lynn Hudson moved to Rhinelander with her parents and attended Rhinelander High School during her senior year. Attending Nicolet College was the natural next step. Why? Because her father, Dr. Robert Steger, moved his family to Rhinelander to become the first dean of instruction at Nicolet College. “It was a new school, a new opportunity, a place that didn’t have community colleges, so building from the ground up,” says Hudson. Her father left his career as a biology, zoology, and botany teacher at a junior college in the Chicago area in 1969.

Hudson adds, “My parents wanted me to come to Nicolet. I was in the first class out at Lake Julia. It was amazing because the classes were small. I

really benefited from being here. It was seminal in my development.”

Hudson graduated from Nicolet College in 1972, earned a bachelor’s degree in biochemistry at the University of Wisconsin-Madison, a PhD in genetics and cell biology at the University of Minnesota, and completed her post-doctoral work at Harvard Medical School. Dr. Hudson spent 30 years doing research at the National Institutes of Health as the head of the Laboratory of Developmental Genetics and later taking the helm at the Office of Science Policy Analysis.

In 2011, Dr. Hudson moved to Tucson, Arizona, to help care for her mother. She spent the next

decade working for a nonprofit that works closely with the FDA to identify better ways to evaluate the safety and efficacy of drugs.

Her father, Dr. Steger, continued working hard with the leadership team to build a reputable college in northern Wisconsin, and make an action plan for lifelong learning. “People figured, you go to high school, you may or may not go to college, and then you’re pretty much done,” Dr. Hudson says. Neither of her parents believed in that philosophy. Dr. Hudson says, even though her mom did not work at Nicolet College, she was one of its biggest advocates. “She was pleased with the directions that the college took at a time when other schools weren’t doing what Nicolet was doing. Even

when my dad started in 1969, he really believed in lifelong learning. That was a time when that was such a novel concept,” Dr. Hudson recalls.

Dr. Steger retired from Nicolet College in 1986, and he and his wife Bertie lived in Rhinelander for 30 years. In 2007, before Dr. Steger passed away, he and Bertie made a gift to the Nicolet College Foundation. In an email to college employees on March 13, 2007, Nicolet College President Adrian Lorbetske wrote, “When I spoke to Dr. Steger it was evident that even in his final days, Nicolet College was very much on his mind and in his heart.” The Steger’s gift was designated to establish an endowment from which two awards are funded every year: the Dr. Robert Steger Professional

**DR. LYNN HUDSON WITH THE FIRST DR. ROBERT STEGER AWARD RECIPIENT, JOSH WELCH, PHARMACIST AND NICOLET COLLEGE FOUNDATION BOARD MEMBER, AND THE MOST RECENT RECIPIENT, SAMANTHA BULLARD, WHO TRANSFERRED TO UW-MADISON THIS YEAR.**

Development Award and the Dr. Robert Steger Innovation Award. The professional development award is given in the spirit of lifelong learning to help the college faculty receive professional support. The innovation award is designed to help employees turn a creative idea for campus services, processes, or teaching into reality.

Dr. Hudson never forgot the important role Nicolet College played in her life, saying, "It really prepared me. I look back at my educational life, and I'd say in all that time, about a half dozen people really influenced me with their passion for the subject and their drive, and half of those were here."

In 2007, after her father passed away, Dr. Hudson established the Dr. Robert Steger Award in her father's memory for students graduating from Nicolet College and transferring to a four-year college or university. Fifteen students received this annual award since then. They are Nicolet College alumni who have gone on to careers in health care,

business, and education, some of them right here in the Northwoods.

Josh Welch is the first recipient of the Dr. Robert Steger Award. After transferring from Nicolet College, he graduated from the University of Wisconsin-Madison and became a pharmacist. Welch moved back to Rhinelander and serves on the Nicolet College Foundation Board. He is a donor, too. Welch says, "Attending Nicolet College was perhaps the single most important decision of my professional career. It set me up for success in ways I could never have imagined and provided a firm academic foundation which I was able to build upon for years to come. I am thrilled to now serve on the Foundation Board and promote the College whenever possible."

Dr. Hudson says seeing alumni like Welch succeed, proves that Nicolet College is making a difference. "Not just in those students' lives, but for the larger good. It's inspiring," she adds. "Perhaps more

than the specific training and knowledge gained through my Nicolet College courses, I benefited from the 'you can do it' attitude that prevailed on campus. I am proud that Nicolet instills confidence in its students, as it did for me. The track record of Nicolet College student success is a testament to that confidence building. As a young woman in science during the 1970s, that confidence served me well," she says.

In 2020, Dr. Hudson increased the award for a graduating student, and she also made a contribution to add to the endowment her parents started. This year, Dr. Hudson gave an additional contribution designated for the Dr. Robert Steger Professional Development and Innovation Awards.

This philanthropic spirit comes from her parents. Dr. Hudson says, "It was an automatic for them. Ten percent tithing to their church. You always have to give back in certain ways." Now, her own giving inspires others. Welch says, "Serving on the Board allows me to give back to the community that supported me when I needed it most."

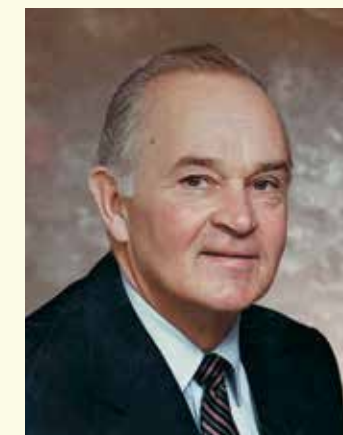

Dr. Hudson is also an inspiration to this year's Dr. Robert Steger Award recipient, Samantha Bullard. Bullard is a first-generation college student and graduated from Nicolet College this spring with an Associate of Arts degree in the University Transfer program. Bullard says, "The Dr. Robert Steger Award is going to help me start off strong at the University of Wisconsin-Madison. I would not be where I am without the support of opportunities like this."

Bullard admits she was not a strong student in high school and says it was not until she attended Nicolet College, that she realized she loves learning. Nicolet College changed Bullard's life. She has a newfound self-confidence and a promising future. Bullard originally planned to earn a bachelor's degree in social work. After being a student worker in the Foundation office and receiving the Dr. Robert Steger Award, she

discovered her life's passion. "I never understood what a nonprofit was before, and now that I know what they are all about, I want to work for this type of organization for the rest of my life," Bullard says. She now plans to earn a bachelor's degree in community and nonprofit leadership. Bullard adds, "I want to use my education and career as an avenue to pay it forward. That feeling I got when I found out I was the recipient of the Dr. Robert Steger Award is a feeling I want to give other people someday."

Like Dr. Hudson in 1972 and Welch in 2007, Bullard transferred to the University of Wisconsin-Madison in the fall of 2021. Each one of these alumni, along with thousands of others, is a real-life example of why Dr. Steger moved to Rhinelander more than 50 years ago to help build Nicolet College from the ground up.

All these years later, Dr. Steger would be proud that Nicolet College and the Nicolet College Foundation continue to change lives. More than three quarters of Nicolet College graduates stay in the district to live, work, and be members of our community. Whether they pursue degrees in nursing, welding, or cosmetology, students who attend Nicolet College overwhelmingly stay in the Northwoods. The Steger family continues to make a positive change in the quality of education students receive at Nicolet College. They continue to make that education accessible and affordable. Most importantly, by changing one person's life at a time, they are changing our entire community. After more than 50 years, the Steger family is still making a difference in the Northwoods community. Theirs is a lasting legacy made possible by a lifetime of philanthropy carried on from one generation to the next.

**DR. ROBERT STEGER**

# FROM CLASSROOM TO CAREER.

"I went from thinking I needed to put nursing school on the back burner to being able to move forward with it."

**DANI LILEK**  
TOMAHAWK  
NURSING DEGREE  
NICOLET COLLEGE ALUM

As a stay-at-home mother of three, Dani Lilek decided it was time to pursue her dream of becoming a nurse. "Going back as a non-traditional student with all the responsibilities of home life was a little nerve wracking, but my instructors made it very comfortable, and I don't think I'm alone as a non-traditional student." Dani is right, she was not alone. 27% of Nicolet College students are 30-years-old and older. "I felt very valued when I was there, as a person, as a student. They didn't just see me as a number that they needed to get through."

In 2016, Dani started slowly by taking one or two prerequisite courses each term until she was able to begin the Nursing program in 2017. Halfway into the program, Dani faced challenges at home. "I became a single mom of three kids, had to support myself financially, and had to get a job very quickly," Dani says. That's where the Nicolet College Foundation came in. She explains, "I was ready to throw in the towel, and I remember getting a call. I was working as a waitress at the time, and I was told, 'We are going to be able to help you out with some of your tuition.' It was a game changer. I went from thinking I needed to put nursing school on the back burner to being able to move forward with it."

The game changer for Dani was our donors. "They allowed me to finish school in a timely fashion. They supported me financially so that I was able to focus on what I needed to learn. The fact that I was so well supported through

Nicolet and was able to become an effective member of this community as a nurse to help others in my community, it's just a full circle effect."

Dani always believed that nursing was her calling, saying, "I knew I wanted to work with people during times of need. It comes naturally for me to want to help others, and on top of my passion for wanting to help others and promote health and wellness to others in my community, I also needed to find something that would suit my family."

While completing the Nicolet College Nursing program, Dani worked as a student nurse at Aspirus Tomahawk Hospital and started working as a nurse intern when she graduated in April of 2020. When she passed her state board exam in June of that year, she began her career as a registered nurse. She works in the Acute Care Unit and says it's even more rewarding than she thought. "I love my patients. I feel like I'm challenged at work and I'm constantly growing in my career and that's a good feeling," Dani explains.

"Thank you for supporting the students at Nicolet College." Dani goes on to say, "Everyone has struggles in life and you help them to become successful and eventually part of our community. Your gift as a Foundation donor matters. It impacts the students at Nicolet College in a very positive way and it's much appreciated."

## LEAVE A LEGACY SOCIETY

Alumni and friends of Nicolet College are creating legacies through planned gifts with their estates. Your gift will provide support for Nicolet students for generations. Thank you for your thoughtful planning and generosity.
