With their latest record, 2021's 'Survival,' they have created some of their most compelling work to date. The sound of Moors & McCumber is adventurous, eclectic, and endlessly creative. Borrowing from rock, pop, blues, folk, and world music, the two multi-instrumentalists defy common logic and embrace spontaneity to bring their stories and songs to life. Their strong vocal harmonies and unconventional instrumentation combine to create a mesmerizing experience. At the center of it all is their evocative songwriting.

THE NICOLET PLAYERS PRESENT: THE 25TH ANNUAL PUTNAM COUNTY SPELLING BEE

November 4 - 6, 10 - 13

7:30 pm or 2 pm on Sundays

Tickets \$10 General Public / \$8 Students and Seniors

Beer, wine, and concessions will be available for purchase for the evening shows, beginning at 6:30 pm.

Complimentary cookies and coffee will be provided during the Sunday matinees.

An eclectic group of sixth-graders vie for the spelling championship of a lifetime. While candidly disclosing hilarious and touching stories from their home lives, the tweens spell their way through a series of (potentially made-up) words, hoping never to hear the soul-crushing, pout-inducing, life un-affirming "ding" of the bell that signals a spelling mistake. Six spellers enter; one speller leaves! At least the losers get a juice box.

COMMUNITY HOLIDAY CONCERT

Complimentary cookies and coffee will be provided during the concert. Non-perishable food and monetary donations for local food pantries are welcome at the door.

Talented musicians from area groups join forces again to bring you this annual holiday tradition. Your seasonal favorites will be performed by the Rhinelander Area Community Band, Northwoods Choraliers, Rhinelander Male Chorus, and the Hymns and Hyrs.

KEN JUON EXHIBITION: ESSAYS AND PORTRAITS

October 10 - November 23

Opening Reception: Thursday, October 13

5 - 7 pm

Nicolet Art Gallery

Free Admission – No advanced registration required

Artist Ken Juon uses words as the primary medium on his painted wooden panels. He uses them in the way other artists use paint, pencil, plaster, or stone as a medium. Individual words, as well as simple, declarative phrases or sentences, are used to introduce his topics. He employs humorous, curious, sometimes ambiguous, and even mysterious statements to invite the viewer to engage with the ideas. Factual statements, clichés, commercial jargon, and visual imagery are all tools used to layer the ideas and add depth and to tap into the viewer's personal experience and memory. At its core, each work presents an attitude. Each piece is informed by the belief that attitude shapes behavior, which in turn influences action.

Juon's work will be on view in the Nicolet Art Gallery and at several installation sites throughout the campus.

His column also ran in the Rhinelander paper. Our lecture series will be packed with interesting facts including the effects of climate change on inland and Great Lakes fisheries, how climate change has and will continue to affect northern Wisconsin forests, plus the fascinating topic of animal tongues and how they have adapted to what the animal eats.
