

**General Education Transfer Guide
Nicolet Technical College – Liberal Arts
to the University of Wisconsin-Stout**

University Requirements: UW-Stout prepares students to graduate with broad, important understandings of daily life in a global society. Thus, there are three university requirements to be fulfilled prior to graduation: 1. Racial and Ethnic Studies (RES) 2. Global Perspectives (GLP) 3. General Education (GE, divided into categories and areas).

****NOTE**** Within the general education requirement, a single course cannot be used to fulfill multiple categories; however, a single course might be eligible for more than one category. For example, PHIL 201 is approved as both Arts & Humanities and Social Responsibility & Ethical Reasoning, but PHIL 201 will meet just one category in the student's program. Some courses fulfill requirements in all three university requirement areas. An example of a single course that fulfills GE, RES and GLP requirements is SOC 375. Students who select courses that count for more than one requirement (GE, RES and GLP) reduce the total number of courses they must take to fulfill university requirements.

General Education Changes – Effective Fall 2023

General Education changes are planned for Fall 2023 at UW-Stout. These include the removal of the designation between 'RES A' and 'RES B' within Racial & Ethnic Studies Graduation Requirements. In addition, within both Arts & Humanities and Social & Behavioral Sciences, there is no longer the requirement to take a course from two different areas (for example: history and literature within Arts & Humanities). Lastly, the Cross-Disciplinary Issues area within General Education will no longer be a requirement, and the three credits previously required there will be absorbed by General Education Selectives

If you know what major you plan to pursue at UW-Stout after completion of courses at your current college, it is highly recommended you access the Program Plan Sheet for that major to determine if any specific GE courses are required, particularly if you are interested in an education (teaching) major. Go online to <https://bulletin.uwstout.edu/> choose UNDERGRADUATE BULLETIN, 'click' on ACADEMIC PROGRAMS/MAJORS then choose the major area of interest. ****IMPORTANT NOTE**** Many of our majors require specific courses even within general education so make sure you are checking the requirements. Just because a course transfers does not mean it will count towards any given major. You may find a chart listing GENERAL EDUCATION REQUIREMENTS BY MAJOR on our Transfer Student Guides & Resources website at <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/transfer-student-guides-resources>

ABBREVIATIONS USED IN TABLE BELOW:

RES* (*A or B) refers to Racial & Ethnic Studies at UW-Stout.
GLP refers to Global Perspective at UW-Stout.
#Courses required for ALL UW-Stout majors.
Remedial courses cannot be used towards degree requirements.
No GE identifies that the course cannot be used for general education
COMSK refers to the Communication Skills general education area
ARNS refers to the Analytic Reasoning & Natural Science general education area

ARHU refers to Arts & Humanities general education area
SBSC refers to Social & Behavioral sciences general education area
CISS refers to Cross-Disciplinary Issues general education area
SRER refers to Social Responsibility & Ethical Reasoning general education area
MATH/STAT/NSCI/ARTMU/CRART/LIT/HIST/PHIL/FLC/SOC/ECON/ANTH/PSYC: are all sub areas of the general education areas under which they fall.

~**Social Sciences** and ~**Humanities** courses listed as such at your current college may fall under other areas at UW-Stout. See **TO UW-Stout** column to see where/how courses may apply. Many majors allow for general education selectives. Any general education course other than the UW-Stout equivalents of ENGL 101, 102 and COMST 100 may apply to general education selectives.

An **outline** of UW-Stout's general education courses along with the definition/outline of the Racial & Ethnic Studies and Global Perspective university requirements is available online in our bulletin available at <http://bulletin.uwstout.edu> (choose Undergraduate Bulletin). **General information** about transfer including links to articulation agreements is available online at <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/articulation-agreements> Be sure to check out the Frequently Asked Questions section <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/transfer-student-guides-resources> . **New articulation agreements are being developed on an ongoing basis.**

**General Education Transfer Guide
Nicolet Technical College – Liberal Arts
to the University of Wisconsin-Stout**

Students successfully completing the Liberal Arts - Associate of Arts or Associate of Science Degrees will have their general education, to include Racial & Ethnic Studies and Global Perspective, considered complete *with the exception of* any specifically required courses. See program plan sheet for the major you are interested in to see any specific requirements.

***Beginning in Fall 2023, additional admission requirements for the following majors will remain in place: Bachelor in Fine Arts (BFA) programs, BS Applied Biochemistry & Molecular Biology, BS Education programs, and BS Dietetics. Students will be admitted directly to all other undergraduate majors at Stout.**

+ For any students interested in any BFA major, BS Art Education or BS Video production, how these courses ultimately transfer will be determined by art department faculty. It is recommended that you retain syllabi and coursework completed in any of these courses.

**General Education Transfer Guide
Chippewa Valley Technical College – Liberal Arts
to the University of Wisconsin-Stout**

University Requirements: UW-Stout prepares students to graduate with broad, important understandings of daily life in a global society. Thus, there are three university requirements to be fulfilled prior to graduation: 1. Racial and Ethnic Studies (RES) 2. Global Perspectives (GLP) 3. General Education (GE, divided into categories and areas).

****NOTE**** Within the general education requirement, a single course cannot be used to fulfill multiple categories; however, a single course might be eligible for more than one category. For example, PHIL 201 is approved as both Arts & Humanities and Social Responsibility & Ethical Reasoning, but PHIL 201 will meet just one category in the student's program. Some courses fulfill requirements in all three university requirement areas. An example of a single course that fulfills GE, RES and GLP requirements is SOC 375. Students who select courses that count for more than one requirement (GE, RES and GLP) reduce the total number of courses they must take to fulfill university requirements.

General Education Changes – Effective Fall 2023

General Education changes are planned for Fall 2023 at UW-Stout. These include the removal of the designation between 'RES A' and 'RES B' within Racial & Ethnic Studies Graduation Requirements. In addition, within both Arts & Humanities and Social & Behavioral Sciences, there is no longer the requirement to take a course from two different areas (for example: history and literature within Arts & Humanities). Lastly, the Cross-Disciplinary Issues area within General Education will no longer be a requirement, and the three credits previously required there will be absorbed by General Education Selectives.

If you know what major you plan to pursue at UW-Stout after completion of courses at your current college, it is highly recommended you access the Program Plan Sheet for that major to determine if any specific GE courses are required, particularly if you are interested in an education (teaching) major. Go online to <https://bulletin.uwstout.edu/> choose UNDERGRADUATE BULLETIN, 'click' on ACADEMIC PROGRAMS/MAJORS then choose the major area of interest. ****IMPORTANT NOTE**** Many of our majors require specific courses even within general education so make sure you are checking the requirements. Just because a course transfers does not mean it will count towards any given major. You may find a chart listing GENERAL EDUCATION REQUIREMENTS BY MAJOR on our Transfer Student Guides & Resources website at <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/transfer-student-guides-resources>

*Beginning in Fall 2023, additional admission requirements for the following majors will remain in place: Bachelor in Fine Arts (BFA) programs, BS Applied Biochemistry & Molecular Biology, BS Education programs, and BS Dietetics. Students will be admitted directly to all other undergraduate majors at Stout.

~**Social Sciences** and ~**Humanities** courses listed as such at your current college may fall under other areas at UW-Stout. See **TO UW-Stout** column to see where/how courses may apply. Many majors allow for general education selectives. Any general education course other than the UW-Stout equivalents of ENGL 101, 102 and COMST 100 may apply to general education selectives.

An outline of UW-Stout's general education courses along with the definition/outline of the Racial & Ethnic Studies and Global Perspective university requirements is available online in our bulletin available at <http://bulletin.uwstout.edu> (choose Undergraduate Bulletin). **General information** about transfer including links to articulation agreements is available online at <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/articulation-agreements> . Be sure to check out the Frequently Asked Questions section <https://www.uwstout.edu/admissions-aid/transferring-uw-stout/transfer-student-guides-resources> . **New articulation agreements are being developed on an ongoing basis.**

[Reference the Math Sequence Chart on-line at https://www.uwstout.edu/admissions-aid/transferring-uw-stout/transfer-student-guides-resources to determine what math course to take based on any math you may be transferring. The Math Sequence Chart will show what math is required for the major you are interested in pursuing at UW-Stout. Courses that transfer as MATH GXX qualify to meet requirements for any major that states <i>At least 1 course from MATH or STAT</i> listed at the bottom of the chart. MATH GXX courses also serve as a prerequisite to MATH 120, 123 (with a grade of C+ or higher) and MATH 150.]
