Courses available via alternate delivery are identified in the semester class schedules. The course outcomes and content are equivalent to those of traditional classroom courses. Delivery methods include:

<p>Accelerate - Accelerated Learning Accelerated learning incorporates hands-on experiences with positive reinforcement of the natural learning abilities of every individual. These courses are geared toward working adults who apply knowledge acquired in the course to their work setting. As a result, class time is reduced.</p> <p>Blended - Blended These courses are a combination of face-to-face and online instruction. In a blended course, the majority of the instruction is conducted in the classroom, and less than 50% of the course instruction is in a virtual classroom over the internet. As a result, the amount of classroom seat-time is reduced.</p> <p>Blend Conf - Blended/Computer Conferencing Instruction is a blend of online instruction, and computer conferencing (via web conferencing software) during the regularly scheduled class time. The majority of the instruction is conducted during the regularly scheduled class time, and less than 50% of the course instruction is in a virtual classroom over the internet.</p> <p>Blend ITV - Blended/ITV These courses are a blend of face-to-face and online instruction. The face-to-face instruction is conducted through live video and audio links (see ITV) to connect students at remote sites with instructors. A majority of the instruction is conducted via ITV, and less than 50% of the course instruction is in a virtual classroom over the internet. As a result, the amount of classroom seat-time is reduced.</p> <p>CBE - CBE This is a NicoletMyWay course. Courses are a blend of online instruction and flexible lab time. Students complete lab activities and/or performance assessments on a flexible schedule during any of the published open lab hours. Instructors are available to assist students online, as well as in the skills lab during published hours.</p> <p>Clinical - Clinical Instruction is conducted in a healthcare facility, clinic, hospital, private healthcare office, or other similar setting under the direct supervision of a qualified instructor. Clinicals are typically completed with a group of students supervised by the clinical instructor.</p> <p>Comp Conf - Computer Conferencing Instruction is delivered through the internet via web conferencing software during the regularly scheduled class time. Students will need regular access to high speed internet and a webcam for these courses.</p> <p>Field - Field Students complete the learning experiences of the course in an off-campus setting or at a local employer (for internship experiences). The instructor may directly supervise the course learning experiences, or may periodically supervise and evaluate the learning experiences.</p>	<p>Flex Class - Flex Class A blend of face-to-face instruction and flexible lab. Courses are offered in a traditional classroom setting with an instructor present. Students complete lab activities in the skills lab on a flexible schedule during any of the published open lab hours. Instructors are available in the skills lab during published hours to assist students.</p> <p>Flex Onlin - Flex Online Students complete coursework in a virtual classroom over the internet. Students may complete course activities online, or in the classroom during any of the published hours. Instructors are available in the classroom during published hours to assist students.</p> <p>Hybrid - Hybrid Hybrid courses are a blend of face-to-face and online instruction. In a hybrid course, at least 50% of the course instruction is in a virtual classroom over the internet. As a result, the amount of classroom seat-time is reduced.</p> <p>Hybrid Conf - Hybrid/Computer Conferencing Instruction is a blend of online instruction, and computer conferencing (via web conferencing software) during the regularly scheduled class time. At least 50% of the course instruction is in a virtual classroom over the internet, and as a result, the amount of scheduled class time is reduced.</p> <p>Hybrid ITV - Hybrid/ITV These courses are a blend of face-to-face and online instruction. The face-to-face instruction is conducted through live video and audio links (see ITV) to connect students at remote sites with instructors. At least 50% of the course instruction is online. As a result, the amount of ITV classroom seat-time is reduced.</p> <p>IA - Individually Arranged Individually arranged courses allow students to complete the majority of coursework using independent study. Students are expected to meet with the instructor on a regular basis.</p> <p>ITV - Interactive Television Interactive television courses connect students in different locations with instructors through live video and audio links. Students can see and hear each other, and the instructor, at all sites. Instructors often incorporate an online component for distribution of course materials, for testing, etc. Interactive television classes are often videotaped as approved by the instructor. Students will be informed when videotaping takes place. Technical problems at a receive-site which interfere with transmission, and weather or receive-site conflicts are examples that might warrant videotaping.</p> <p>Online - Online Students complete 100% of the coursework in a virtual classroom over the internet. Students interact with the instructor and other students, complete assignments, and take exams via Nicolet's online learning system. Online students have the support of a classroom community, just not in a traditional classroom.</p>
